

Scondsacharm:

So happy to be able to make it for the official launch of @cremesimon here in Singapore! 😊 and boy, oh boy, this is one exciting new brand to look out for, ladies! First up, I was brought into lil' Paris by the whole look & theme of the mobile pop-up booth which shows a glimpse into Creme Simon's past (love learning the history of products! They always fascinate me) 😊 ✓ Next, I love how each product is customized for different seasons (& carefully labelled). Every product has been tested thoroughly & they made sure that each product is rated well by their focus group before approving them. 😊 Wow! 🌿100% Natural Active Plants Extracts ✓ Lightweight textures that feels matt without silicones! Also free from parabens, alcohol, sulphate, coloring! MAJOR WOW! 🌿Have I mentioned it's a 150 years old?! A skincare founded since 1860 is definitely worth your time so I really suggest you check it out! Let the textures speak for themselves. 😊 ➡➡They'll be at KnightsBridge till the 28th of July, and during the different opening days, there are daily specials along with sweat treats like cotton candy, laduree macarons, ice cream! So just grab your partner, drop by, test some products yourself, get some samples, grab some sweet treats and let me know how you like them! 😊❤️😊Only sharing the best! Have fun ladies!

At the #CremeSimon launch yesterday. The Pop-up is now outside Knightsbridge, so if you're in town, why not stop by and check out this 150 year-old French legend? Specially reformulated for the Asian market, the line promises to brighten. Thank you @cremesimon and @touchprandevents for hosting me! #clozette #skincare #bblogger #beautyblogger
